

The world faces a number of inequalities,  
for example:

64.9   
million young people are  
unemployed

This is just one of the inequalities that drive us to play our part in creating a 'fairer world'.

We are committed to achieving the United Nation's Goals for Sustainable Development in our 7 international hubs.

- Employment support and career pathways
- Delivering skill training for youth and adults
- Expanding access to economic opportunities
- Promoting inclusive development through community partnerships
