

# HOW TO SET UP YOUR ENTHUSE PAGE

## TOP TIP

Use pictures! Images draw peoples attention far more than plain text. It helps personalise the page and will motivate donors.

You will have received a direct link already to your schools event page.

Then select 'fundraise for us' button (top-right hand corner)

You will then have to register an account with enthuse in order to start fundraising for us.

1

## Add your target

Here you add your target. This will have already been decided by your schools, so make sure you add this to your page.

2

## Add a profile photo

To add a photo, click upload image. Statistically speaking, fundraising pages with a profile picture will raise more! When you are happy, click continue.

3

## Write your story

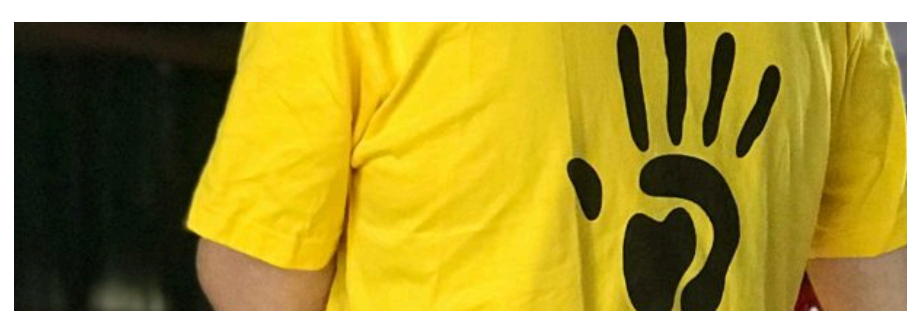

All great fundraising starts with your cause. Stories can inspire people to give and help them feel more connected to your mission.

E.g. Ahead of my Global Citizenship programme in Peru, I am fundraising for the FutureSense Foundation. The money raised will go towards supporting rural and disadvantaged communities around the world.

4

## Share your page

Once you have it all set up share your page to friends and family and on social media. You can post about your milestone updates to keep your donors excited and connected to the cause.
